"Buck" Benny Seen Most Popular Artist on Continent But Bing Crosby's Income of $314,917 Is "Tops"—Burns and Allen Get New Contract

Jack Benny is the most popular single artist on the continent, according to latest radio polls. He commands a greater audience than any other performer has. His "Buck Benny Rides Again" hour delights young and old. There's no doubt about it, he's considered next to Mr. and Mrs. Pan and all the little Pans.

☆ ☆ ☆

But is Mister Benny the highest paid entertainer? No!

☆ ☆ ☆

Old North America's not the performer pocket as much money as $3[illegible] as did Bing Crosby. Maxie Rosner, Barry Wales, Paul Whiteman, Al Jolson, Joe Penner, Ozzie Nelson and Robbie Carter? No!

☆ ☆ ☆

According to the annual salary report of the U.S. internal revenue department which was recently released in Washington, Mr. Benny earn more than $100,000 in the year as did the aforementioned. You know the answer.

☆ ☆ ☆

As far as radio-service entertainers are concerned, Bing Crosby was the highest paid performer, rolling his pockets with more than $6,000 each week to bring his earnings at the end of the year up to $314,917.

☆ ☆ ☆

Next came Major Bowes with a little more than $250,000 for a year of terrorizing before a microphone audition entertainers. That's being paid at the rate of nearly $5,000 a broadcast. The amateurs themselves received as high as $25 per program.

☆ ☆ ☆

Paul Whiteman's week cost his sponsors $242,472 for the year and Rudy Vallee played to the tune of $198,848. Al Jolson mammied his way around for $147,846; Joe Penner received $105,000; Gladys Swarthout, $101,538 and Eddie Cantor's $130,000 more than paid for the year's groceries and for coals for Ma and the gas.

Gracie Knits

Speaking of money, Gracie Allen and her husband-manager, George Burns have signed a new contract which, if there aren't any strings attached, just about sets a new record.

☆ ☆ ☆

Burns and Allen will switch from the Columbia chain to a program on the N.B.C. network after April 1. More than likely Ray Noble's orchestra will accompany the zanies on their new show. When they took the air for their first season of programs a few years ago with Guy Lombardo, Burns and Allen received $1,250 a week. Their new contract calls for $3,000 a program.

☆ ☆ ☆

Ken Murray and his famous stooge, Oswald, have been booked to take over Burns and Allen's Wednesday night programs starting March 31.

Yvonne King

Short Shots

Jimmy Scribbs down at New York auditioned for the Wednesday night Columbia program which features Deanna Durbin and Al Goodman's orchestra . . . Beth ended the partnership of Clara, Lu and Em last week. Mrs. Howard Bannerman of Chicago "sat" at the microphone radio unit [illegible] a short interview on Friday . . . It sounds like a publicity stunt for Bobby Breen's new picture, "Hands Across the Border" but according to Hollywood advices the young singer wrote to Shoonadie of Shoopnadie and Sold, asking for a definition of a rainbow. Bobby received the following reply: "A rainbow is stuff that when a fellow stands in front of all colors of . . . Paul Robeson—not Robeson—will [illegible] guest star with Al Pearce and his gang tonight at 9 p.m. over the network. Robeson is an exponent of the lowly harmonica. He plays as many as 12 harmonicas, including a wall-creeping bass instrument in the course of interpreting but one selection.

U.S. Radio

The U.S. federal communications commission has announced that at the close of the fiscal year on June 30 last, there were 454 licensed broadcasting stations in the U.S. That's 30 more than in 1936 and the largest number since the early days of 1935 when there were 471 stations in operation.

☆ ☆ ☆

According to the commission's annual report, the majority of broadcasting channels is a serious problem. "Even though the useful radio spectrum in the next seven years will be seven times as extensive as that of today, there would not be made available such additional multiplications of new channels, and with the advent of television and other new uses for radio, the commission would continue to be confronted with a dearth of radio facilities in the face of a large demand therefor," it was declared.

☆ ☆ ☆

The report also pointed out that "there are numerous obstacles to be overcome and much technical development is required before television can be established on a sound national scale."
